

Traffic Conditions

LEVEL OF SERVICE ANALYSIS

Level of Service describes how smoothly traffic moves by evaluating vehicle delay and speed, using a scale from A to F. Grades A through C indicate generally stable, free-flowing conditions, D and E signal increasing congestion and noticeable delays, and F represents heavily congested, stop-and-go traffic.

No-Build <small>LEVEL OF SERVICE ANALYSIS</small>	EXISTING 2024		OPENING YEAR 2032		DESIGN YEAR 2052
